

Honors, GT Honors, & Humanities Summer Reading

Future Hebron Hawk,

Welcome to Hebron 9!

Reading improves reading and writing skills by increasing comprehension and expanding vocabulary, grammar, and spelling. You cannot write better than you can read, so opening a good book this summer will prepare your mind for high school English's reading and writing components. **While summer reading is not required for any English class offered at Hebron 9,** English students are encouraged to continue exploring new ideas this summer through novels, articles, poems, and biographies because our English team believes that words build worlds. So, this summer, choose texts that engage and excite you. When you choose your reading material, you are growing as a thinker, increasing your ability to focus, and developing reading independence.

If you need help finding a good book, we suggest www.goodreads.com, www.fantasticfiction.com, or the [SORA](#) app. We look forward to discussing your summer reading texts next year. Have a great summer!

Sincerely,

Cassie Madewell & Alyson Vick
