

## Code Your Vision:

FM Hacks is the first ever high school hackathon in North Texas open to all high school students. Individual participants or teams up to 3 can brainstorm, plan, and develop a technical project for any prompt topic they choose. Projects will be professionally judged and participants will get a chance to win great prizes!

## Prompt Topics

The FM Hacks Hackathon will consist of 13 categories/topics with various prompts to choose from. These topics will include:

1. Gaming
2. Networking
3. Simulating
4. Machine Learning
5. Data Analysis
6. Puzzles
7. Data Systems
8. Data Manipulation Applications
9. Automation
10. Blockchain
11. Cybersecurity
12. Education
13. Art Generation

## Awards

Thanks to our amazing sponsors, the top three winners overall will receive cash prizes and/or special tech items. Trophies and other awards will be given to category awards and honorable mention awards.
